Summary

Full Stack Developer skilled in building responsive web apps, integrating APIs, and implementing secure authentication. Focused on performance, scalability, and clean code, with a passion for delivering seamless user experiences.

Work Experience

Full Stack Developer Intern | OPM Corporation – Remote Jul 2025 – Present

- Building scalable full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Collaborating on backend development including API integration, database modeling, and server-side logic.
- Working in a team environment using Git for version control and participating in sprint planning and reviews.
- Enhancing UI/UX by creating responsive, interactive frontend components with React and Tailwind.

Full Stack Developer Intern | Innomatics Research Labs – Hyderabad, TG Sep 2024 – Oct 2024

- Developed and maintained responsive web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented core features such as user authentication, form handling, and dynamic routing to enhance UX.
- Collaborated within an agile team to debug issues, apply best practices, and improve frontend responsiveness.
- Integrated RESTful APIs and worked with component-based architecture using React.
- Participated in daily stand-ups and code reviews, improving communication, teamwork, and understanding of agile development.

Technical Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Redux, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, MongoDB

Tools & Platforms: GitHub, Postman, VS Code, ChatGPT (AI Tools)

Personal Projects

RepliCast AI – Content Repurposing Tool | [LIVE DEMO](#)

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, Google Gemini API, Framer Motion, GSAP, PostgreSQL

- Developed an AI tool to convert video, audio, or text into blogs, SEO captions, and social media threads using the Gemini API.
- Integrated file upload functionality, editable output, and real-time content rendering.
- Designed smooth UI animations and modular components for maintainability.
- Implemented PostgreSQL for structured storage of repurposed content with efficient querying and scalability.

Education

Innomatics Research Labs

Full Stack Development Certification – MERN stack.

D.P. Vipra College

Bachelor of Commerce (Business Specialization)

Hyderabad, TG

Apr 2024 – Sep 2024

Bilaspur, CG

2021 – 2024

Certifications & Achievements
