## Summary

Full Stack Developer with experience in backend engineering, system architecture, and technical leadership. Skilled in building scalable MERN applications, secure authentication systems, payment integrations, and managing end-to-end deployments. Proven track record of leading teams and delivering production-ready platforms on time.

## Work Experience

### Software Developer Intern → Tech Lead | OPM Corporation – Remote

02 May 2025 – 02 February 2026

- Promoted from Backend Developer to Tech Lead for production-level projects.
- Designed and developed complete backend architecture for the Official Website and Admin Panel.
- Built full-stack applications and integrated frontend, backend, and admin systems.
- Implemented secure authentication, authorization, and payment integrations.
- Developed real-time dashboards and analytics for live website and career data.
- Led a development team and ensured on-time delivery.
- Managed deployment, server configuration, and production releases (DevOps).

### Software Developer Intern | Innomatics Research Labs – Hyderabad

Sep 2024 – Oct 2024

- Built MERN stack applications with authentication and REST API integration.
- Developed responsive UI and reusable components.
- Worked in Agile environment with code reviews and sprint cycles.

## Technical Skills

**Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

**Backend:** Node.js, Express.js, REST APIs

**Databases:** MongoDB, MySQL

**Authentication & Security:** JWT, Role-Based Access Control

**DevOps:** Deployment, Environment Configuration, Production Builds, AWS

**Tools:** Git, GitHub, Postman, VS Code

## Key Projects

- [OPM Official Website & Admin Panel](#) – Full-stack development, system integration, deployment.
- [Avtaar Music](#) – Backend architecture, authentication, payment integration; later led project delivery.
- [Ridlin](#) – Blue Dart delivery integration, payment system, secure role-based authentication.
